Dear <Name>

I hope you're well. My name is Sandeep, and I'm interested in a position at [Company Name] that seems to be a great fit for my skills ([Job Link]). I found your profile during my research on the company and was impressed by the work [Company Name] is doing.

With a background at Akamai, NASA, and Bayer R&D, I've developed a strong foundation in machine learning and data analysis. I'm keen to learn more about opportunities at [Company Name] where my experience could be of value.

Could we connect to discuss this further? Any guidance you could provide would be greatly appreciated.

Thank you for your time.
